Mr. Ron Cox
Cox Fire Protection, Inc.
7910 Professional Place
Tampa, Florida 33637

Dear Mr. Cox:

I am writing today to commend Cox Fire Protection for its performance on the project thus far. Cox Fire Protection has performed admirably throughout a difficult preparation period and to date has carried out its work in a professional, workmanlike manner while attaining the high level quality we all expect of ourselves. Hans and Mark have managed the installation process with skill and have demonstrated the proactive approach required of the demanding schedule.

As you are aware, our scheduled substantial completion date for the football training side of the facility is August 21, 2006 and the substantial completion date for the balance of the facility is September 29, 2006. I don't have to tell you how incredibly difficult it is going to be to work in this building after the first substantial completion turnover date. Our thrust should be to sufficiently staff the project to finish the entire project in August. I know this is aggressive, but have faith in our combined ability to achieve this goal. Continued daily communication and coordination among ourselves and the various field staff of all trades is paramount to our success in this endeavor.

With less than five months left to our substantial completion, a renewed sense of urgency is in order. Having personally worked with you and nearly every major sub on other high priority projects in the past, I trust that Cox Fire Protection will continue its aggressive approach to this project. Please know that you have an open line to me to discuss any issues that may be impeding our ability to be mutually successful on this signature project.

Best regards,

MARK McCASKEY
Project Director
