Mr. Cary Vea,

Thank you for taking the time to visit and write the letter of appreciation. You called this partnership to my attention and allowed me to recognize my people who worked hard to make all of this happen.

The exceptional working relationship with Polytron sets the standard for customer-supplier cooperation. Your quality and responsiveness is most impressive and the Award you received was most justified. I look forward to our continued work together. Well done - from a "delighted customer."

RADM, USCG

Following a Coast Guard reception to acknowledge key Coast Guard and Polytron personnel, Mr. Vea received a handwritten note:

"The exceptional working relationship with Polytron sets the standard for customer supplier cooperation. Your quality and responsiveness is most impressive and the award you received was most justified. I look forward to our continued work together. Well done - from a "delighted customer"."
