Dave

Everyone in the world does not have a problem letting people know when they have done wrong, but we never seem to open our mouths when things go right. I on the other hand do not have this problem. Your company and the employee representing your company went above and beyond the call of service and I would recommend your services to anyone I know, needing them and will use your company when needed in the Baltimore area due to this. Thank you and your employee for the doing such a great job!!!

George A. Anderson Jr.  
Vice President
