

thanks

Concrete Imaging Services + William - 4-24-10

I'm Marilyn Hollman, a retired teacher from Easton Elementary in Denver. Twenty years ago I buried a Time Capsule on Earth Day. The students put ideas, suggestions on how to improve the environment + we buried it, to reunite 20 years later, on the 40th Anniversary of Earth Day - April 22, 2010.

Your Company + William were kind enough to scan the ground to try + locate the Capsule. Mike Vigil at CU Denver had arranged everything for this special day. Unfortunately, it couldn't be found.

Our celebration + reunion went ahead as scheduled. We had a blast

Thank you so much for your ~~interest~~ interest + support. William, you were GREAT!

Marilyn Hollman
