

5/7/18

I wanted to commend Ella S.A. for the outstanding job performed on the Eilan water meter installation project. The professionalism exhibited by Ella in the preparation of project costs and managing the work flow was exceptional. In the field, the crews were very well prepared for the difficult work required to install the new water meter "loops" at each occupied building and the disruption to existing occupants at Eilan proved minimal. Their field coordination during the work and its quality were exhibited at all water meter work areas and exceeded the Eilan owner's expectations. Again, thank you for completing this project on schedule and within budget.

Sincerely,

Thomas D. Woodson  
Vice President  
Hudson Americas, L.P.
