To whom it may concern,

Meehleis Modular Buildings, Inc. has been working with Bertelson Precast for a number of years. They provide precast stair and landing products based on our custom specifications and per DSA requirements. Bertelson has been able to meet many challenges "head-on" such as code revisions, testing requirements or custom architectural designs. Their deliveries are on time and they maintain communication with us to meet our stringent project schedules. Whether they are delivering to our job sites or our plant, their drivers are very professional. We have been happy to have Bertelson Precast as part of our team on many successful projects. They have always provided quality products and excellent service and we recommend them highly!

Sincerely,
MEEHLEIS MODULAR BUILDINGS, INC.

Rich Gaytan

Vice President – Material Control
