

“The owners are blown away by the lit blade sign, it looks absolutely awesome!

Strong, strong work by Metro, I know it’s nice to hear your work is appreciated and it sure is on this end.”

**John McMahon**

*Development Manager at the Peregrine Group*

*And not only were the owners delighted with Rumford Center's signage, the Providence, Rhode Island project was **one of five chosen as an “Outstanding Smart Growth Project”** by the Grow Smart Rhode Island organization. The signage had to complement the building and the location, while at the same time supporting the historic architecture and dynamic energy embodied in the mixed-use building. See more about the project in [PCA's magazine feature](#).*
