

*"My wife and I were faced with an enforcement case with the City of Santa Barbara regarding the conversion of our residential property into a permitted duplex. Prior to hiring Dave Burke, we felt hopeless and lost as to how to navigate through the varying levels of bureaucracy inherent to the process, and had no idea as the chances of success. Dave was very straightforward with us, advising us as to the potentially problematic issues with the conversion and the costs related thereto. At the end of the day, hiring Dave Burke was the best decision we made. He delivered everything that we hired him to, met or beat his estimation as to the cost of his services, and kept us in the loop as to the status of the project through its various stages. Our property, now a permitted duplex, went from an eyesore to one of the nicest in the community, thanks in no small part to Dave Burke, and we would not hesitate to recommend him to anyone contemplating a residential remodel."*
