To whom it may concern,

I have known River City Roofing for 3 years. My experience with them has been great. I have 7 properties and have them doing roof shingle replacements and repairs on all of them.

Prior to engaging with River City Roofing, I used 3 roofing contractors that I contracted work out to. I kept running into jobs having to be redone. I contacted River City Roofing for a job and have been satisfied ever since. They have good follow up, communication and are very professional. Their relationship with the property owners is superb and you can trust they will do what they say. I would recommend River City Roofing to anyone.

A satisfied customer,

Bill Conley, CAM
