To Whom This May Concern:

Our company has hired Medina Services, Inc. during our time when we were building several ground-up QuikTrip locations. Moreover, they also did the vinegar plant in Griffin, Georgia. They were referred to us by QuikTrip themselves and other previous contractors. They have met all our deadlines without a problem and shown that they are capable enough to not only handle 4 locations at the same time, but all in different states. We have used them to help build our smaller gas stations to larger travel stations. They are invaluable with troubleshooting and their willingness to work with other trades to ensure smooth installation. Most of our supervisors and project managers prefer working with them.

Should you require further information or discuss about this company, please feel free to contact me.

Sincerely,

Kajima Building & Design Group, Inc.

Yoshi Sato  
Vice President/Business Unit Leader
