

To Whom it May Concern:

We understand that you are looking to hire Medina Services, Inc. to oversee the storefront installation portion of your project. We have worked closely with them for over 10 years on numerous amounts of projects and highly recommend using them for your storefront needs. We have called on them to assist with construction projects varying from small scale repairs to ground up builds.

In these past 3 years we have worked with them on over 30 projects totaling in approximately \$1,000,000.00. Each year we award Medina Services, Inc. several high dollar contracts to work at the same time with their work exceeding client expectations. Because of the amount of experience, they have in the field, we have called upon them on multiple occasions to consult with the architects and end clients to ensure optimal performance of storefront systems, doors, and hardware.

In addition to the dedication, they have shown us, we are also fully aware of the hundreds of other projects they were awarded from other contractors that they work simultaneously with ours and have no doubt that they can complete not only our projects on schedule but other projects as well. Please feel free to reach out with any questions and/or concerns.

Thank you,

*Dominick Bizzarro*
