Tucson, Arizona 85703

Dear Lyle:

As usual, it has been great working with you and your staff.

The PC install went as smoothly as possible due to the cooperation of *all members* of the team. This includes Bill and Todd who functioned exceptionally well, and did what was needed to get the job done. Mel Tillett, the installation project leader, also expressed how pleased he was with Bill and Todd's cooperation and performance. We all worked very long days and without everyone's cooperation it would have been impossible to accomplish what we did in the few days allowed.

This has been a long project that started with the cabling and continued until the PC's were installed. Carondelet Holy Cross Hospital always provides interesting and unique challenges that need to be conquered. So thanks, for the patience, expertise and responsiveness displayed by everyone at Native Teledata.

THANK YOU

Diane M. Cameron,
Systems Analyst
