

---

To Whom It May Concern:

I am writing this letter in regard to the business relationship I had with Rentex Construction, Inc. and its principals and employees. Between April 2013 and January 2014, I was the superintendent of a multi-million dollar project at Edwards Air Force Base. The project consisted of several different scopes and Rentex was brought on to do the deconstruction and concrete work for the project. They successfully completed their scope of work worth several millions of dollars without ever being bonded. They were willing to work within the ambitious construction schedule we gave them and made adjustments to keep the job progressing in a timely manner when necessary. They worked safely, efficiently and with integrity. I look forward to our next project together.

Sincerely, Ron Huska, Superintendent.

A handwritten signature in black ink, appearing to read "Ron Huska", written over a horizontal line.
