Thank you again for the great work and service we received this past month from you and PDQ. We had a house moving away from a cracked foundation and sinking. It could have been a disaster, but you fixed it and guaranteed it. The owner and I are very happy. ALL of your team was very professional. You provided a quick solution priced fairly.

We see a lot of contractors and not often do they do what they promise, but your team did what they promised and it was on time. We will recommend you highly.

Thank you PDQ,
