RE: Brickyard – Compton, CA

Dear Ronnie

I would like to extend our firm's sincere appreciation for the outstanding work that ENOR Traffic Control performed on the Brickyard Industrial project in Compton this past year. From our very first meeting with David Frelow, the level of communication and professionalism that your firm displayed during the course of the project was exceptional. Specifically, the two instances where the City of Compton revised their thinking on the approved traffic control plans and ENOR stepped up after hours to provide additional sheets that the city then approved, was extremely helpful in completing the offsite work.

Thank you and we wish continued success and ENOR Traffic Control will be the firm I call for all of my traffic control needs.

Very truly yours,

  
Michael Swanberg  
Senior Project Manager
