

In my position as Director of Property Management and Leasing for a Tidewater Virginia based real estate firm for almost thirty years, I have associated and done business with many grounds maintenance and landscape contractors over the years. I can truly say that Shawn Anderson and his company Visionscapes Land Design is at the very top of my list for professionalism, design creativity and quality workmanship. Shawn Anderson is a pleasure to work with; I have relied on him for many years for landscape planning, development and consulting and would not hesitate to recommend his company, Visionscapes Land Design, to anyone looking for a top notch landscape design company. Visionscapes Land Design under Shawn's talented leadership is one of those very rare companies in which the work contracted for is not only performed in a professional manner but also consistently meets or exceeds the highest expectations upon its completion.
