To whom it may concern,

It's in true pleasure to be writing this letter of recommendation for Augie Perez.

I have known Mr. Perez in my capacity as a client from him at fixed my house from Chinese material. Mr. Perez was imprisoned my person with his job and capacity on this work. Based on Augie's work, and participation on my home construction, I'd rate Augie's with excellent performance. Augie Perez is creative thinker with an eye for detail and devotion for logic. He has a terrific ability to draw on his own observation and experience to develop his opinion on a variety of issues. His regular contribution to full-work construction provided insight for his peers and for me as his client.

In conclusion, I would highly recommend to Augie Perez for any housekeeping job. If his performance in my house construction is any indication of how his will succeed, Mr. Perez will be a positive addition to housekeeping work. If you should need any additional information you can feel free to contact me at:
