I would like to extend my gratitude to all of you for the cooperation, help and patience during the remediation of my home.

A special thanks to DryWall Contractors, and to Agustin who was available to answer and return calls (even on the weekends), also he looked out for every detail and finishing on special requests and upgrades.

I strongly believe Drywall Contractors did an excellent job and there is no doubt the sub-contractors they chose showed a high level of professionalism.

Again thank you and happy & successful 2013!
