RE:
Drywall Contractors Letter of Recommendation

Dear Ted Traynor,

I wanted to write to you on behalf of my family on the overall satisfaction of service and work provided by Augustin and Danny from Drywall Contractors Inc. They exhibited wonderful communication with me throughout the whole process and were constantly working with my wife and I to insure our satisfaction. Never did a phone call or email go unanswered immediately by either one of them. And there drywall work was superb. We were very happy with their services and would certainly recommend them to anyone who asked.

I hope they will continue to work with your company as they are without a doubt an asset to any General Contracting firm. I believe they demonstrated a level of service found in very few construction related companies. I should know, I deal with handymen, so called "contractors", painters, cabinetry folks etc... all the time. They are a keeper for sure.

If you have any questions concerning their work in my home or anything else, feel free to contact me by phone or email. Thank you for your time as always.

Sincerely,

Robert J. Rodriguez
