

To Whom it may Concern:

I just wanted to take a minute and express my gratitude to you and your staff for the work performed in our home. It is a tremendous relief to know that now my family is living in a safe environment. I am especially thankful with Agustin from Drywall Contractors Corp for his proactive participation in the project and complete attention to every concern we had, the ending result fulfill every expectation. Carmen and I certainly recommend his services to any other Chinese drywall victims.

My Best Regards,

Fernando Pabón.
