

To whom it may concern,

Me and my family would like to thank everybody involve in the process of rebuilding our house.

Special thanks to Drywall Contractors' Team, Agustin, Danny, and Carlos, without their help and professionalism the outcome wouldn't be as good as it is. The quality of the work, quick response to our needs and changes was superb, I will definitively recommend Drywall Contractors to anybody, I hope that Moss keeps using their services for a long period of time.

Also would like to thank Frank from Electric Depot, they did a great job and Frank dealt with all our requirements in a very professional way. Thank you very much to Frank and his team.

Also Right Plumbing did an excellent job specially the plumber that fix the toilet downstairs, I apologize because I forgot his name but he is really good on his profession.

Last and not least, I would like to thank you Erica and Dave, thanks for been flexible and be on top of the project, and special thanks for coordinating such a good team of contractors, I know is not easy but you can tell that it was a great job by the outcome.

If I am forgetting someone please my apologies, but everyone involve did a wonderful job.

Please Erica do not hesitate to send this communication to your superiors.

Best Regards to everyone

Jorge **Lozano** & Cristina Munoz
