RE: Special Forces Complex, Eglin AFB, Contract # W91278-09-C-0017
HPCC Job # 8009104

To Whom It May Concern,

It is with much appreciation that I write this Letter of Recommendation for the work performed on behalf of Acousti Engineering Co of Florida for above referenced project. Acousti's performance on the project was exemplary and was a key factor to the success of the project. Acousti's willingness to work closely with Hensel Phelps Supervision to coordinate the on-time delivery and installation of all of the flooring and ceiling components for the project truly made the project a success. Hensel Phelps would like to recognize that this success was attributed to Acousti's key supervision and qualified craftsmen. Their attention to detail and quality is appreciated.

Hensel Phelps Construction Co. greatly appreciates the effort of Acousti and looks forward to having them as a Team Member on future projects.

Sincerely,

HENSEL PHELPS CONSTRUCTION CO.

Terry Harshman
Project Manager
