Reference: New High School for Cleveland Independent School District

Dear Jack,

I wanted to personally thank you for the quality work and the professional manner in which your people and your firm have served the Cleveland Independent School District on the development and construction of the new High School. Our staff has rated your firm highly in our project closeout review process. We want to again say thank you for the way you worked with our team to form a project team together that finished this project on time and under budget. Without your efforts our success would have been limited at best.

We look forward to working with Aeco Interior Contractors again in the future.

Best regards,

SEDALCO Construction Services
