

Testimonials

“It has been 7 years since we began our journey together building multi-family housing projects in the San Diego and Los Angeles counties. I just wanted to mention that you and your staff have been a major factor in ZRS’s success to date. Your competitive pricing, due diligence, and professionalism is very much appreciated. We look forward to building many more multi-family housing projects with you in the future.”

“As the owner of MVW General Contractor, Inc., I have had the privilege of working with Jim Kelly of Skelly Electric for over 15 years. Their high-quality level of service, professionalism, and expertise in electrical and low-voltage systems, has established Skelly Electric as one of the top electrical contractors in Southern California.”

MVW General Contractor, Inc***

"I have known Jim Kelly for over 25 years and over this time have used Skelly Electric on many of my projects I have found them to be extremely reliable and competent in their work. Jim has also been very good with design build projects as well as re-engineering of existing designs for cost and time savings. I have no hesitation in recommending Jim and Skelly Electric to anyone that needs a competent Electrical Contractor."
