Re: Tucson Commercial Carpet, Inc.

To Whom It May Concern:

Developers Surety and Indemnity Company is the Surety for Tucson Commercial Carpet, Inc.

While it is not our policy to give advance commitments for bonding credit for a specific contract, we have established a \$500,000 single job limit with an aggregate limit of \$750,000.00 for this client.

We feel confident that if Tucson Commercial Carpet, Inc. is issued a contract for a project that we will consider issuing the required Performance and Payment bonds. Naturally, other factors such as confirmation of funding for the project, the scope of work, terms and conditions of the contract, the amount of other uncompleted work and their current financial condition would play a part in our final decision.

It is understood, of course, that any arrangement for suretyship is a matter between the contractor and their surety. We assume no liability to any third party if for any reason we do not execute future bonds for this account.

Sincerely,

Patricia A. Stump  
Attorney in Fact for Developers Surety and Indemnity Company
