

"I would like to take this opportunity to thank you and your staff for your recent assistance on our Tenant Improvement project in Monterey, CA.

Buffalo's has always gone the extra mile for us to make sure that the job is done and is done right. Your staff are knowledgeable and understand the complexities, pressures, and time constraints of retail construction.

Your personal involvement in our projects has also been extremely helpful in getting our projects open on time and within budget. I would not hesitate to recommend your company and your team to any who needs a mechanical contractor!"

Mike Wolff, President
Timberwolff Construction, Inc.
