

To Whom It May Concern:

I am writhing in appreciation and recommendation of Tidalwave Enterprises. I have worked with Tidalwave Enterprises for about 5 years and numerous projects. I was introduced to them while with my previous company and I brought them on board here at HanesBrands. They are a valued member of our team coming in on budget and on time even under the tightest time and scheduling constraints. Brian and the team at Tidalwave are invaluable in the success of all of our projects in the challenging west coast market. They continue to take on and meet difficult challenges and push themselves to meet expectations.

Thank you,  
**John Adams**
