Dear Mr. Standley,

I would like to thank you and your crew for a job well done.

We have never purchased a pre-engineered building before and thought it might be the best solution for our warehouse needs. Your pricing was competitive, but most of all, you and your crew made the whole experience a pleasant one.

You stated at the signing of our contract that your projections for completion once the slab was finished would be finished in approximately 2 weeks.

You were right on about your schedule! I was amazed at the efficiency and speed of your crew. They started on a Monday and had the structure up within the two week time frame.

The building is everything we expected and the experience with Landmark was very pleasing.

I enjoyed working with your company and recommend anyone considering purchasing a pre-engineered metal building to use Landmark Metal Builders Inc.

Sincerely,

Jim Ruby
