November 17, 2003

To Whom it May Concern:

We would like to recommend Landmark Metal Builders, Inc., 3787 S. Highway 92, Sierra Vista, AZ 85650 as a reliable company. They were hired as the general contractors to complete a 40' x 60' commercial building to serve as our Banquet Hall.

Brandon and Dominic took great interest in the construction and personally worked many hours on the building. We were promised a finish date of November 8th, 2003 to accommodate a large resort-wide function to be held on November 12th. This was crucial to our scheduling. We, in fact, were given the keys to the building November 5th!!!

Their dedication and quality construction on a project can definitely be relied upon. If you need a personal recommendation, you may call the number above or call our main office in Tucson (520-323-9779).

We thank Landmark for services rendered.

Sincerely,

Don and Flo Albritton
