Doc Watts Electric, Inc
PO Box 4792
Winter Park, FL 32793

To whom it may concern:

Many of my vendors ask me for reference's. I don't normally give them out because I am a tough customer and I am only satisfied by outstanding performance. I hired Doc Watts to build my first Monkey Joe's in 2006. I was immediately impressed by George Rivera's knowledge and work ethic. He would work until the job was done no matter how long it took. He handled all of my deadlines and completed everything that was he was required to do. When I wanted changes, George knew all of the electrical code from memory and was able to tell me what I would need to do in order to make changes to my M E plans. I was very satisfied with Doc Watts. I used them on my other two Monkey Joe's over the following years. Each project was done correctly without any problems. I have used them for other projects throughout the last three years as well. I have worked with many tradesman and contractors. I can recommend very few and would only use these few again. I highly recommend Doc Watts. They will be the only electrical contractor that I use in my future Monkey Joe's.

Sincerely,

A handwritten signature in blue ink that reads "Michael Carter".

Michael Carter
Owner
Monkey Joe's of Central FL
