Re: Reference Letter

Dear Silviu,

As a current client of Safetech, having contracted with your organization to supply us with fire, burglar, and other security duties for just about a year, we have found that you have provided us with magnificent service.

Your employees have shown tremendous knowledge in their field and have insured the smooth integration of work needed, which is especially important to us. The employees working at our facility reflect highly the standards to which your company holds them. When something is needed they respond in a more than efficient manner and perform above and beyond what is called for.

The products and service provided have been excellent and it is without any hesitation that we would recommend your firm to anyone and especially our associates in the hospitality industry.

With our highest regard,

Bernard Moreau  
General Manager
