To Whom It May Concern

This letter is for the sole purpose of recommending Gulf Coast Site, Inc. We recently completed a project for Lee County entitled "Ten Mile Canal Filter Marsh". GCS was contracted to perform the earthwork on this project with a contract valued at \$496,391.

Gulf Coast Site performed their contract in an exemplary manner. Their commitment to quality, budget and schedule are very much appreciated.

In conclusion, we would recommend them for future projects and we look forward to a continuing relationship in the future.

Sincerely,

A handwritten signature in cursive script, appearing to read "Leo W. Smith".

Leo W. Smith
Project Manager
