RE: **LDT and Pontiac Stamping Projects**

Dear **Ms. Stuef**,

Aristeo chose Heritage and Company, Inc-MBE to perform the landscaping required for the General Motors Lansing Delta Township (LDT) Body Shop and General Assembly expansion project, and the General Motors Pontiac MPS additions. I have also been fortunate enough to have Heritage and Company, Inc.-MBE as a subcontractor on several other projects throughout my career.

As always, the results on the aforementioned projects, were excellent.

Specifically on the GM Pontiac MPS project the seeding and mulching were a late add to the contract and needed to be performed prior to the winter weather, and to have vegetation established quickly. Heritage and Company Inc.-MBE were able to mobilize quickly and perform their work in a professional manner and provide a project that the owner was satisfied with.

On the GM LDT project we were faced with unsuitable soils that needed to be amended to provide a good condition for the establishment of turf. Heritage and Company Inc.-MBE provided the necessary soil analysis and proposed remediation methods. Again the finished product was completed professionally and to the owner's satisfaction.

I would recommend Heritage and Company Inc.-MBE to any client looking for professional and expedient landscaping services. The two projects mentioned above are only two examples of the excellent work they have done for me in the past. I never hesitate to subcontract work them.

As always, thank you for the excellent work in the past and I look forward to many more successful projects in the future. If you have any questions or concerns regarding the above information please feel free to call me.
