**Re :** Tricia Murch  
Permit Solutions

To Whom It May Concern,  
To Prospective Clients of Tricia Murch of Permit Solutions,

Tricia Murch of Permit Solutions helped me a great deal with easing the headaches and hassles of obtaining various types of permits. She made my job much much easier.

I'm the Operations Manager of a 55,000 square foot office and warehouse building with about 35 tenants. We've been renovating many of our spaces in 2012, utilizing various trades such as plumbers, electricians, general contractors, and other trades.

Tricia relieved me of a great deal of time, stress, and pressure off my hands by obtaining all the municipal, county, and state permits as needed. She dealt with, interacted with, and coordinated work with all the contractors, municipality, utility companies with new meters and especially the tenants. It was such a tremendous help for me and eased my life.

Nothing I asked of Tricia was too much. She went above and beyond the call of duty, taking pride in her work, in a timely manner, with character and integrity doing the right thing.

I utilized her advice and consultation of the best ways to handle everything associated with renovations and much more. She gladly gave of herself.

Her service to owners, managers, and contractors is second to none.

And by the way, her billing was very reasonable.

I very highly recommend Tricia for any and all Permit Solutions type of work, in addition to other types of advice and consultation.

Very truly yours,

Larry J. Ansell  
Operations Manager
