To Whom it May Concern:

We are pleased to recommend Jesse Aguirre and his company, Millennium Interiors, to you for your upcoming project.

Millennium Interiors has supplied many of our construction projects with rough carpentry, drywall installation, acoustic installation, and finish carpentry for several years.

Millennium mans the jobs very well and is highly organized. Millennium's crews are all skilled at their jobs and work efficiently and cleanly and cooperate well with other trades.

Jesse has excellent communication skills and is always very responsive to our calls during a project.

Millennium's workmanship has always been highly satisfactory and they are very attentive and responsive to scheduling requirements.

Let me know if we can be any further assistance in this regard.

Sincerely,

Joe Friedman Construction Corp.

Richard Seitchick, Vice President
