

March 7, 2014

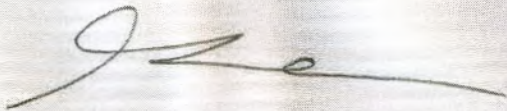

To Whom It May Concern:

I am writing this letter to recommend the services of VK Jensen Enterprises, Inc. They have completed multiple utility construction projects for Toho Water Authority (TWA) include wastewater, reuse water, and potable water work, involving both new construction and replacement work.

I have personally been involved on two recent projects with VK Jensen, the Old Lake Wilson Rd Utility Imp rovements project and the Hill Street Phase 1 Utility Relocation project. Both projects were completed within the required contract cost and time.

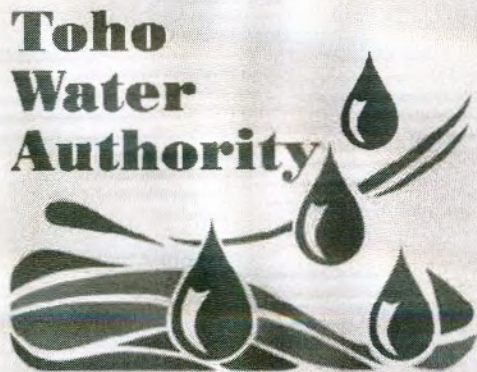

VK Jensen has been a TWA Continuing Contractor since 2009. They have performed satisfactorily on every project to date and I would not hesitate to recommend them to other organizations for all related types of work.

Sincerely,

George Eversole Jr.

TWA Project Manager
