Dear To Whom It May Concern:

RE: HYPE PROJECT REFERENCE

This letter is written to attest to the work and performance on the Hype Recreation project, Dearborn, constructed in 2012. Air King provided mechanical HVAC services on this project, and according to our communications with the contractor on that project, Air King did a great job. Their pricing was competitive, work quality very good and responsiveness was also very good.

If you would like more information, please do not hesitate to contact me at (248) 936-8062. More information regarding Air King can be found on their website at www.theairking.com.

Sincerely,

A handwritten signature in green ink that reads "Dennis J. O'Beirne AIA". The signature is fluid and cursive, with the initials "AIA" clearly visible at the end.

Dennis J. O'Beirne, AIA, LEED AP
