RE: Letter of Appreciation

March 4, 2014

To Whom It May Concern,

This letter will verify that Air King has worked with Acme Enterprises on several projects since January 2013 and we have found them to be a valuable partner for our HVAC and refrigeration needs.

Kahlil and his team have demonstrated extensive knowledge of the work and commitment to our scheduling requirements on many occasions, thus helping Acme to provide our clients a timely completion at competitive prices.

We here at Acme look forward to a continued working relationship with the Air King Group and I would recommend using them for your projects.

Should you require further information, please contact me at (810) 499-1771.

Thank you,

Robert Russell  
President
