Dear Brock,

I would like to take this opportunity to express my appreciation for completing the installation of the auxiliary lane and striping of State Highway 50. It is my pleasure to work with an individual who takes such great pride in there work; the access project was completed in a timely and professional manner. Brock you're organizational and communication skills were key factors in the completion of the improvements to the highway.

Again, thank you for a great job and I am looking forward to working with you again.

Sincerely,

A handwritten signature in black ink, which appears to read 'Todd Ausbun', is written below the word 'Sincerely,'.
