**Sean Baron**

Superintendent at Hunter Roberts Construction Group

In the construction business it is rare to receive a great complement. That being said, I would like to take a moment to share a contractor that needs one.

I am currently running a 50 million dollar complex project that cannot slow down even in this extreme cold weather. The project requires temporary heat in order to pour concrete, set block, spray fire proof and complete finishes.

When looking for temporary heat we turned to KB Portable Heat. They have gone above and beyond our expectations to keep our job running. From pre-planning with Fire Marshall approvals, to design, to set up, and then maintenance. They have proven themselves knowledgeable and experienced in getting us exactly what we required. As long as Brian Long is in the temporary heat business, his heaters will be on my jobs.

Thank you [Brian Long](#) for a job well done.
