Re: Amaro Bistro – Bothell WA

Dear Kevin:

I am writing to you as a follow up on the Amaro Bistro project that we recently completed in Bothell, WA. I want you to know how much W.G. Clark Construction appreciated the hard work and professionalism that you and your employees brought to this project. The teamwork and determination to hold to the schedule and keep the quality level high showed in the finished product. Many of the Amaro team members remarked that this was one of the smoothest and most professionally run projects they had been involved with!

We feel the overall success of this project was a direct result of the commitment to teamwork and your company's hard work and determination to overcome the challenges that come with doing a complex "fast track" restaurant project.

Because W.G. Clark is striving to have a long-term relationship with the Amaro Bistro management team, the extra efforts shown here will be helpful in working with them on future jobs. With all of the competition in our marketplace it is nice to know that we can set ourselves apart from the crowd with good service and high quality work.

Please accept my congratulations on a job well done, and my professional respect on the ability of your company and your outstanding employees. I look forward to working with you on future projects.

Sincerely,

Jim Bray
Senior Project Manager
