Valley Industrial Piping, Inc. is currently spear-heading an extensive and expensive renovation and replacement project at Harrisonburg Men's Diversion Center.

The management and work crews of VIP have been exceedingly professional, cooperative and shown a willingness to 'do what it takes' to provide quality service; given at times the constraints placed upon them while working in a secured environment.

Given what I have observed, I would not hesitate to utilize their services again.

Should you have questions, please feel to contact me at the number listed above.
