Local Developing Business (LDB) Certification

Dear Mr. Jordan:

The Office of Small Business Development of the Greater Orlando Aviation Authority ("the Authority") has reviewed the application and supporting documentation submitted on behalf of Jordan Electrical Solutions, Inc. to determine whether the entity is eligible for certification as a Local Developing Business (LDB) Enterprise.

I am pleased to inform you that your company has been certified as an LDB Enterprise under the Authority's LDB Policy.

Please be advised that this certification is not equivalent and should not be construed as certification under the Authority's Disadvantaged Business Enterprise Policy promulgated pursuant to the Department of Transportation's regulations, or the Authority's Minority/Women Business Enterprise (M/WBE) Policy.

Your company's LDB certification with the Authority will be effective through December 30, 2016 unless there is a change of ownership and/or control of the company or the owner's personal net worth exceeds \$750,000, at which time you are required to submit information with respect to the change. The Authority reserves the right to reaffirm or deny the certification of the company based on this new information.

For re-certification at the end of the three (3) year period a new LDB Application must be submitted. The application must be submitted sixty (60) days prior to expiration of your current certification. You may download a copy of the application at http://www.orlandoairports.net/small_business/index.htm.

LDB certification is NOT a guarantee of work, but enables the firm to compete for, and perform, contract work on all Authority projects as an LDB contractor, sub-contractor, consultant, sub-consultant or material supplier.
