Dear Jerry: |

It's difficult to have a showroom built when you can't be there. I know I have experienced people and an architect that has done this for me in the past, but never have I seen a contractor interpret plans to such perfection, roll with the problems and still come in on time. I can't tell you how much I appreciate the way you completed our project.

You might think I'm a bit prejudiced, but thanks to you and all who worked on this job, we have the prettiest showroom in all of DCOTA.

Thanks again.

Very truly yours,

Stefan Lasek
